

Farmworker Hunger Strike

Last year's historic Taco Bell Truth Tour brought unprecedented national pressure on Taco Bell, as 70 workers and 30 students led a caravan of protests from Atlanta to LA, on their way to a march of 2,000 angry consumers on Taco Bell headquarters in Irvine. The tour resulted in the first-ever talks between farmworkers and fast-food executives, but Taco Bell has yet to take any concrete steps towards taking responsibility for the sweatshop-like conditions in Florida's tomato fields.
